

Profile Summary

Software Engineer with 1+ year of experience designing and developing scalable backend applications using ASP.NET Core, MVC, and RESTful APIs. Strong foundation in Data Structures & Algorithms and object-oriented design principles. Experienced in performance optimization, API design, and database tuning. Passionate about building secure, high-performance systems and solving complex engineering problems.

Technologies

- Programming Languages:** C#, JavaScript, VB.NET, Java, Python, C, C++
- Frameworks & .NET Technologies:** ASP.NET Core, ASP.NET MVC, .NET Core, Web API, REST APIs, Entity Framework Core, LINQ
- Backend & Architecture:** REST API Design, Business Logic, Secure Coding, Authentication & Authorization (JWT, Role-Based Access Control), Logging & Error Handling, Performance Optimization, Dependency Injection, Clean Architecture (Basics), OOP, SOLID, SDLC
- Frontend Technologies:** HTML5, CSS3, JavaScript, jQuery, TypeScript, Angular, React, Responsive Web Design
- Database & Data Access:** SQL Server, MySQL, PostgreSQL, Stored Procedures, Query Optimization, Dapper
- API & Integration:** REST APIs, JSON, XML, SOAP/XML Web Services, Microservices (Basics), Distributed Systems (Basics)
- Cloud & DevOps:** Azure, Azure Functions, Azure DevOps, CI/CD, Azure Storage, Application Insights, IIS
- Testing & Tools:** Unit Testing, Debugging, Visual Studio, Git, GitHub, Postman

Experience

- ASP.NET Developer** Manappuram Finance Ltd
March 2024 – Sep 2025
- Designed and developed ASP.NET Core MVC applications to support internal business operations.
 - Built and integrated secure RESTful APIs for seamless frontend-backend communication.
 - Improved application performance by 30–40% through query optimization, indexing, and API tuning.
 - Implemented responsive and user-friendly UI components using HTML, CSS, Bootstrap, and JavaScript.
 - Optimized PL/SQL queries to reduce execution time and improve database efficiency.
 - Followed Git-based version control, coding standards, and Agile development practices.

Projects

- AppSuite – HR Management System**
- Developed a modular HR application using ASP.NET Core (MVC + REST APIs).
 - Implemented features for salary slip access, leave management, and ID card requests.
 - Designed backend APIs to handle authentication, validations, and business logic.
 - Improved data consistency and system reliability through structured API design.
 - Tech Stack:* ASP.NET Core 8, REST APIs, Razor Pages, JavaScript, Bootstrap, PL/SQL
- Compliance Management Portal**
- Built a compliance tracking system aligned with RBI guidelines.
 - Developed dashboards to monitor compliance status (Pending / Approved / Delayed).
 - Implemented automated compliance calendars with due-date alerts.
 - Focused on backend logic, API integration, and performance optimization.
 - Tech Stack:* ASP.NET Core 8, REST APIs, Razor Pages, JavaScript, Bootstrap, PL/SQL

Education

MSC Computer Science	NSS College ,Ottapalam	2023
BCA	Bharathamatha College of Arts and Science,Kozhinjampara	2021

Certifications

- ASP.NET Full Stack Development (FinEdge)
- Introduction to Asp. Net(simplilearn)
- Python and Django
- Machine Learning with Python(IBM)

Languages

- English
- Malayalam
- Tamil
